

Revised 12/1/2019 Benefits

Class and Description	Burn Fat & Weight Loss	Endurance	Strength	Tone/Shape Legs & Butt	Tone/Shape Upper body	Flexibility	Agility & Coordination	Core Strength	Reduce Stress & Tension
Ai Chi for Life — a form of water exercise which uses slow circular movements to build strength, balance and flexibility while also promoting relaxation and a healthy mind-body relationship.		X	X			XX		X	XX
Aquatic Cross Training -Drag and buoyant forces will be experienced in the water, restoring and improving your agility, muscular strength, and quickness in a pain free environment. This is a great option to add to any land based warriors or for recovery with moderate impact.	XX	XX	XX	XX	XX			XX	
Aqua Arthritis for Life -This class incorporates head-to-toe stretching exercises and movements in order to preserve and restore flexibility and strength. It can help to improve coordination, balance and overall mobility.		X	X			X		X	XX
Aqua Easy for Life -This is a low impact, total body conditioning program which targets beginners and those who are moving on after physical therapy and aqua arthritis. Its combination of aerobic, strengthening and stretching exercises can offer both comfort and challenge to participants of all fitness levels.	X	X	XX	X	X	X		XX	X
Aqua Fibromyalgia for Life -By taking advantage of the therapeutic properties of warm water, this class helps to increase range of motion and muscle relaxation and to decrease chronic pain and other physical discomforts. Slow, gentle motions and an integrated total body approach enhances the mind body connection and an overall positive outlook.		X	X			X		X	XX
Aqua Intervals -45 minutes of interval training without using equipment. Use the body effectively to increase aerobic capacity, and core strength	XX	X	XX	X	X			X	X
Aqua NMC for Life — (Neuro-Muscular Conditioning) This class allows the participant to increase their mind body awareness in the buoyant warm water environment while stepping up the pace.	X	X	XX	X	X	X		X	XX
Aqua Power Ball -A high intensity core strengthening workout using balls of various sizes. Participants are encouraged to challenge themselves while going at their own pace	X	XX	XX	XX	XX			X	
Aqua Power Intervals – 60 minutes of exercises that move from large muscle groups to cardio intense actions through water. Class moves at a fast and fun pace. Participants can exercise at their own pace.	XX	X	XX	XX	XX			X	X
