

Family Locker Room Policy

Family Locker Room:

The Family Locker Room is designed to allow supervised access to the pool for children under the age of 13 by a parent or guardian when the child is the opposite gender of the parent or guardian. The policy states that any child that is between the ages of 18 months and 13 years must use the family locker room to access the pool if the parent or guardian is the opposite gender of the child.

This means that if a father has an 18 month old daughter he must access the pool through the family locker room with his daughter. This policy is in place to insure a comfortable locker room environment for both adults and children.

All parents with children are welcome to use the family locker room when accessing the pools.

Thank you, Healthplex Sports Club Management.
